## FOREWORD

### DR. SURESH BHOSALE

Chairman & Managing Trustee,  
Krishna Charitable Trust, Karad

During the last year Krishna has seen sustained progress in keeping with its perspective plan. The objectives in the academic program, service, extension & research have almost been achieved. The academic program has seen the introduction of MSc in Critical Care Nursing, a course of 2 years that has been taken up by only one more college in Maharashtra. B-Pharm is preparing itself for the 2<sup>nd</sup> year and for increasing its admission strength to 100.

The quality framework is being monitored periodically by the IQAC. We have on our anvil a no. of proposals which includes NABH accreditation for nursing excellence & for the molecular & genetic lab. The services are undergoing upgradation with addition of new advanced equipment like the Linear Accelerator and *state-of-art* GE Cath Lab. The no. of patients attending the OPD and the indoor bed occupancy has also increased.

Specialised procedures including neuro, plastic and cardiac surgeries are being carried out regularly. The no. of beneficiaries under the state Insurance & other schemes have also seen a significant rise.

Research promotion, guidance & support is being provided for all projects & the outlay is around to Rs. 3 crore. Institution support is also provided for capacity building viz. attending workshops, conferences & for pursuing advanced & skilled courses. The research initiative has resulted in a no. of faculty taking up the doctoral degree (PhD) programs.

Fellowship programs in emerging areas are also becoming popular with students who want to enhance their knowledge & skills.

Extension activities which have been our strength are centred around providing health care & education in the surrounding villages. The University has decided to adopt at least 5 villages for a comprehensive upliftment programme that will address all issues relating to public health, education & health care.

The Green Brigade in the last year has been very active planting trees in the campus & on the adjoining mountain top.

Women Empowerment Cell has come up with a new approach by setting up the adolescent girl's clinic along with community activities for creating awareness about women's empowerment and for spreading the message of 'Beti Bachao – Beti Padhao Abhiyan'.

The diagnostic camps, awareness and early detection of cancer, Mother & Child care, oral health and all other national health programs like Revised National Tuberculosis Control Program (RNTCP), National Program for Control of Blindness (NPCB), Immunization etc. are carried out in an extended geographic area.

Krishna continues to grow, to serve, to save lives and contribute to the well being of the society.

## MESSAGE

**DR. VEDPRAKASH MISHRA**  
Hon'ble Chancellor

It gives me immense pleasure, satisfaction and heartening to note that **Annual Report** of the Krishna Institute of Medical Sciences (Deemed to be University), Karad is being brought out for the **Academic Year 2017-18**, which covers the entire '**plethora**' of happenings in the said year specially incorporating there under the various initiatives undertaken with relevant authorities towards the mitigation of the concerns and challenges and the same would be a '**handy referral piece**' of reading of all the '**relevant informational details**', which are of '**consequence and relevance**'.

The '**Annual Report**' also operationally turns out to be a mirror reflection of the '**happenings and doings**' by the various constituent colleges under the ambit of the University. It brings out their '**creative and committed**' activities in various domains, which pertain to teaching and learning, research, extension and also sustainable development of the society, as a whole.

An institution of higher learning cannot afford to have an '**ivory tower image**' for themselves because that would amount to they being chopped and severed off from the '**societal obligations**' and '**ground realities**' thereto.

Krishna Institute of Medical Sciences (Deemed to be University), Karad with its constituent units is committed to catering to the '**cause**' of society in an '**exemplary**' manner, so as to render the best that is expected and desired out of it. The Annual Report categorically brings out this very aspect of commitment of the University to the larger societal good with a sense of accountable responsibility.

I record my sincere appreciation for the Editorial Board and their team for untiring efforts in '**actualizing**' the same.

## GROWTH STATEMENT

**DR. MRS. NEELIMA A. MALIK**

Hon'ble Vice-Chancellor

**Every year end we do ponder to take stock of our accomplishments. The Zest Of the year gone by drives us to energetic new year and prepares us for the roadmap ahead for new achievements, new goals, new targets.**

“Without continual growth and progress, such words as improvement, achievement, and success have no meaning”. ~ *Benjamin Franklin*

Progress and advancement are the results of effective planning, implementation, execution of developmental ideas, collective will, hope and continuous hard work. Progression is nothing but a new development, a positive innovation, improved technique, method or suggestion that leads an individual or an university as a whole towards positive growth. Advancement and progression is the mirror to the continuous growth of the university in terms of imparting learners centric education via new technology, modernization, improving infrastructure and other facilities which will create an excellent ambiance for their overall holistic growth. Our university believes in these Quality sustenance and improvisation as per the ever changing needs for both health sciences education as well as patient care.

Our university has fetched many unique distinctions.

Our university is NAAC accredited with A grade-CGPA:3.20 on 4 point scale and on 1<sup>st</sup> August 2016, Krishna Hospital Medical Research Center has been accredited with Grade A by National Accreditation Board of Hospitals -NABH for 3 years. Now ours is also ISO 9001:2015 certified university.

National accreditation Board for testing and calibration Laboratories-NABL-Grade A and NABH accreditation for its blood bank with Grade A were obtained earlier.

The successful 2<sup>nd</sup> NABH surveillance audit of blood bank and it's re accreditation in May 2017, and successful re accreditation NABL for KIMS Diagnostic Labs on 18-19<sup>th</sup> March 2017, speaks a lot about establishing quality system and patient care.

Our Neonatal ICU is also re accredited by National neonatology forum of India second time and our Lead referral Lab is the first of its kind, in the state of Maharashtra & rural India and is WHO recognised .

With all these accreditations in place, our hospital is the first teaching rural hospital, in the state of Maharashtra and 5th medical college in the country to gain all accreditation with A grade.

Our hospital has been inducted into the prestigious consortium of Accredited healthcare organization .

We had earlier total five constituent faculties, namely, medicine, dentistry, physiotherapy, nursing and biotechnology -allied sciences, offering UG and PG courses. The new entrant is Krishna institute of Pharmacy for B Pharm course with intake of 60 students, which was commissioned in August 2017.

We expanded our PhD programs in 25 various disciplines and postdoctoral fellowships in emerging areas of health sciences.

Our library services have various value added features for the faculty and students- excellent book bank, current awareness system, document delivery system, selective dissemination of information of international /national sources with audiovisual and E resource access with digital lounge is in place. Our library budget is at the tune of one crore and eighty lakhs annually.

We have dedicated ICT cell offering their services for software development, hardware maintenance, staff and students orientation and training, telemedicine, videoconferencing etc.

Our top priority is always to raise the bar of the university .

Apart from disseminating educational content through well structured upgraded curriculum in each faculty, we have expanded our horizon by offering many short term research fellowships for undergraduates, basically to develop a research culture.

Annual intramural budget provision for research is more than three crores. Researchers are provided with seed money for implementation of research

project, reimbursement of expenditure and incentive for publication give boost to the students and faculty members.

Specialized laboratories such as Molecular Biology and Genetic Laboratory, Lead Referral Laboratory and Virology Laboratory provide specialized assays for research purpose.

The molecular biology and genetics lab was rechristened as dept of molecular biology and genetics under the aegis of microbiology dept, recently.

The nominated expert committee recommended this department for conducting PhD program and higher studies related to this subject. Also taking into consideration about infrastructure, state of the art equipment and expert manpower and the research activities carried out, the department was also recognised on the same day as 'The Center of Excellence' .

On 8<sup>th</sup> to 10<sup>th</sup> Dec.2017, an expert University Grants Commission (UGC) panel visited our university for continuation of 'Deemed To Be University' status. It is indeed a recognition of the hard work put in by all concerned in a unified manner with decisive determination and astute commitment.

With this background all of us have also to put our best foot forward in the coming year and contribute to further growth.

Through this year's treatise you all will know the events and achievements of our university. This was possible only because of committed united efforts of all faculties.

"There is only one option for us now - Make progress and move ahead".

Long live Krishna Institute Of Medical Sciences "Deemed to be University", Karad, Maharashtra

Humbly yours
