Research Orientation programme

22nd February 2022

Late Dr. Arun Patil Memorial lecture on Inquisition to illumination organized for newly admitted (January 2022) undergraduate learners (MBBS, BDS, BPTH) by: The Directorate of Research, KIMSDU.

As always, Hon. Chief Advisor, Dr Ved Prakash Mishra delivered a lucid and a very inspiring lecture to the fresh batch of undergraduate learners. The student audience enjoyed this spellbinding and enthralling lecture which, for many, was the first experience. At the outset, Dr Mishra sir expressed his wish that, " the lecture that I am to deliver now be devoted to the fond memory and to record salutation to my esteemed brother whom we lost, Dr Arun Patil, a pioneer of Research profile of the University and be designated as "Late Dr Arun Patil memorial oration" He also suggested that the Research orientation lecture to be organized in future for every new batch of young students admitted to the university, be designated as Late Dr Arun Patil Memorial Oration.

The team of the Research Directorate instantly agreed to the suggestion in unison and thanked Dr Mishra sir for this wonderful and humane suggestion.

Dr Mishra sir started with briefing on the objective and the significance of the programme and highlighted the three cardinal objectives of the Paris declaration for higher education and professional education namely, 1. Generating effective clinicians 2. Generating Keen researchers and 3. Generating effective teachers. He stated that while, curriculum ensures the first and third objective, it does not address the third objective effectively. And on this background, he appreciated this Research orientation programme initiative of the Research Directorate which, will help to achieve the second objective.

Then Dr Mishra sir went on to describe why it is important that the professional learners be transformed in to keen researchers. He stressed the importance of being inquisitive and asking question to self, 'why' by stating the example of a great scientist, Newton and told that the question why apple falls on the ground that Newton asked himself and undertook analysis that lead to laws of gravitation which subsequently changed life of humankind on the planet. He referred to Harold to describe five dimensions of inquisition i.e. What, Where, When, Why and How.

A Different Concept-

Dr Mishra sir advised students that there is no need to get confused in prioritizing between a Clinician, a Teacher or a keen Researcher since the aim of all three is to generate a precious human resource. He quoted Sir Abdul Kalam's idea of 'wings on fire' and giving five 'Is' to children namely **Information, Imagination, intuitionIntegration** of information which will lead to **innovation**.

He then talked about Self determination theory and highlighted the importance of self determination. It is not enough to know what you are as shown by the mirror but it is important to know what is within you; your inquisition will decide what you are, he said. He further mentioned that autonomy in inquisition is important and if you are alert and accountable, you will be committed to your autonomy.

He stated the importance of desire for recognition and described the path to attain it, starting from ability which everybody has, blended with motivation (intrinsic and extrinsic) will lead to competence which will give visibility for recognition and that will result in identity development. He highlighted the importance of intrinsic motivation and said without it everything else will fall apart.

He then made students to realize that we all are beneficiaries of inventions and discoveries that happened through huge contribution from hundreds and thousands of committed scientists and now it is our turn to add on to it. He made it clear to the students that he is not imposing on them but advising them to convert innate desire into will. He said that Research should not be limited to a publication and students should aim at generating **New** and **Novel**.

He elucidated levels of dimensions starting from ability blended with motivation leading to competence in research resulting in attitude (How well you do it) development and suggested that one should not stop at that but should strive to do it better, best and better than best.

He advised mentors to take the students through the process- create interest, facilitate to develop a mindset to attain focus to decide goals. He told that in management parlance, it is important to set **SMART** goals meaning thereby- **S**- Specific, **M**- Measurable, **A**- attainable, **R**- Renewable and **T**- Time bound.

Finally, he summarized telling students that, "appreciate that your inquisition is precious and hence take it to illumination; Research is a key avenue to find your identity.

The lecture was so inspiring; was evident from the fact that many students made a bee line to the organizing team to register their research interest and for making further enquiries.

Dr. Ajinkya Chougule,Dr. V.K.Dhulkhed

113. **A prospective randomized clinical trial for comparison of nalbuphine alone versus dexmedetomidine with nalbuphine for the control of intra operative shivering under spinal anesthesia**

Dr. Ebin Vellanikkaran,Dr. P.B.Jamale

114. **Comparison of the landmark technique and the static ultrasound-guided technique for**

115. **right internal jugular vein cannulation in adult cardiovascular surgical patients**

Dr. Sandesh J.D, Dr. V.K.Dhulkhed

116. **A Randomized Control study to compare two different methods of Induction of Anesthesia in pediatric patients and its effect on emergence delirium**

Dr. Vishad Shaha,Dr. V.S.Kapurkar

117. **A randomized double-blind clinical study comparing the effects of postoperative epidural analgesia with dexmedetomidine versus ketamine in lower limb orthopedic surgeries**
Dr. Anushree Premrajan, Dr. V.K. Dhulkhed
118. **A comparison of intracuff alkalinized 2% lidocaine and lidocaine with ketamine and dexamethasone on emergence cough, sore throat and hoarseness**
Dr. Shweta Konda Dr. Mrs. Kanase
119. **Comparison of Magnesium sulphate and fentanyl as an adjuvant to Ropivacaine in intravenous regional anesthesia for upper extremity surgeries – A prospectiverandomised double blind clinical study**
Dr. Ratthinam PL Dr. Mrs. Kanase
120. **Comparison of fentanyl and dexmedetomidine vs dexmedetomidine as adjuvants to lignocaine in Intravenous regional anaesthesia– a prospective randomized double-blind clinical study**
Dr. Deep Vaghela Dr. Mrs. Dimbale
121. **Comparison of hemodynamic changes between phenylephrine and glycopyrrolate group after spinal anesthesia for cesarean delivery**
Dr. Pranisha Mooli Dr. Mrs. Kanase
122. **Comparison of 20 IU in Infusion and 3 IU Bolus Dose with 10 IU Infusion of Oxytocin during Elective Caesarean Section under Spinal Anesthesia – A Randomized Double Blind Comparative Study**
Dr. Vikrant Nishandar, Dr. P.B. Jamale
123. **A Randomized Double-blind clinical study comparing the efficiency of Fentanyl with Ropivacaine versus Dexmedetomidine with Ropivacaine as anesthetic dose through epidural catheter in lower limb orthopedic surgeries**
Dr. Yatheesh Gowda, Dr. V.K. Dhulkhed
124. **Comparison of intraperitoneal instillation of ropivacaine with dexmedetomidine versus ropivacaine with dexmedetomidine and tramadol for post-op analgesia following laparoscopic cholecystectomy: a randomized ,double blind, clinical trial**
Dr. Aliya Chillem Dr. Mrs. N.V. Kanase,
125. **Comparison of effect of airway nebulization with ropivacaine 0.5% alone and in combination with dexmedetomidine on presser response to laryngoscopy and intubation in patients undergoing surgery under general anesthesia – a randomized double blind clinical study**

Dr. Nevelle Colaco Dr. Mrs. N.V.Kanase,

126. **Comparison between Dexmedetomidine and Fentanyl on intubation conditions during Awake Fiberoptic Bronchoscopy – A randomized double blind comparative study**

Dr. Anirudh Jayraj Dr. P.B.Jamale

127. **Intravenous magnesium sulfate for postoperative analgesia after abdominal hysterectomy under spinal anaesthesia : a randomized, double blind trial.**

Dr. Kavyashrimani Chintada Dr. Mrs. K.S.Dimble,

128. **Etomidate versus combination of etomidate with Dexmedetomidine for motor seizure duration and Attenuation of hyperdynamic responses to modified Electro convulsive therapy**

Dr. Rojin Sebastian Dr. V.S.Kapurkar,

129. **Comparison of Intraperitoneal Instillation of Bupivacaine(0.5%) with Tramadol Versus Ropivacaine(0.5%) with Tramadol For Post-Operative Analgesia after Laparoscopic Cholecystectomy: Randomized Double Blind Clinical Study**

Dr. Vibhavari Patil Dr. Mrs. N.V.Kanase,

130. **Comparison of Ropivacaine (0.75% hyperbaric) with Fentanyl and Bupivacaine (0.5% hyperbaric) with Fentanyl in lower limb surgeries**

Dr. Aman Gour Dr. Vishwas Joshi,

131. **Efficacy Of Usg Guided Single Shot Bilateral Erector Spine Plane Block With Dexmedetomidine As An Adjuvant To Ropivacaine In Patients Undergoing Off pump Cabg**

Rohankumar Vaghela Dr. V.K.Dhulkhed,

132. **Comparative study of intravenous Dexmedetomidine, Fentanyl along with 0.5% Levobupivacaine scalp block to attenuate the hemodynamic response to skull pin insertion in Craniotomies.**

Dr. Aishwarya Srinivasan, Dr. Shraddha Naik (Bahulekar),
