Dr. Mane highlighted the importance of blood donation for the students. NSS Blood Donation Camp is an initiative by KIMSDU. Laboratory in PSM dept Of KIMSDU was utilized for a thorough medical check-up of potential donors, as well as the donation itself, while another there was another hall was where donors could lie down and recuperate for a while before they leave venue. They were provided with glucose water and food including biscuits, a banana and a cake. It was great to see more people than pre-registration numbers turning up in the venue. This stretched the capacity of the blood bank, as a result of which the contact details of the donors were taken so as to allow them to donate at the earliest to the blood bank. The blood bank asked for 25 units. The samples were carefully sealed and transported away, while the volunteers and hospital staff helped in the clean- sp of the arca throughout the moming there were smiles and laughter all around - a true embodiment of what we believe in -selfless service with a smile, the donors received certificate
